

In-Season Manure Application Field Day

Planting to 3 Feet

Agrometer SDS 8000 makes it feasible to apply manure till the corn is up to three-feet height. Observe and learn how the Agrometer SDS 8000 applies manure on corn at the field day.

Planting to R3

RAIN 360 Robotic Irrigator can be utilized to apply manure from V6 to V12 or it can be used to apply diluted manure as irrigation water up to R3 Corn Vegetative State. RAIN 360 will NOT be demonstrated at this field day due to supply chain issues.
